**Coldwell Banker Charitable Foundation and Special Spaces Team Up to Create Dream Bedroom Makeover for 5-year-old Mount Prospect Girl**

**Deerfield, Ill. (March 07, 2016)** – The Coldwell Banker Charitable Foundation and Special Spaces Northern Illinois Chapter, a non-profit organization that creates dream bedrooms for children with life-threatening medical conditions, are teaming up for a bedroom makeover for 5-year-old Mount Prospect resident, Vita Viggiano.

On Friday, March 18 Vita will come home to find a big surprise – a new dream Disney princess-themed bedroom. Vita was born with cystic fibrosis and undergoes daily vest therapy and nebulizer treatments for at least 50 minutes per day. Between hospital stays and hardships at such a young age, her spunky personality shines bright. Vita enjoys painting, playing with dolls and going to school. She absolutely adores her baby brother and four-year-old sister, Maya, with whom she shares a room. Vita and Maya are inseparable and their love of everything Disney princess was the inspiration for their new space.

The room will include brand new beds for the girls, new lighting, additional storage, lots of pink princess décor, a TV for Vita to watch while receiving her daily treatments and much, much more.

To help complete makeovers, Special Spaces depends on donations from individuals, local businesses, groups and even other foundations. Vita's room makeover is being funded by the Coldwell Banker Charitable Foundation.

Fran Broude, President of Coldwell Banker Residential Brokerage, said "We are so proud and excited to give Vita a new bedroom. Our Foundation supports housing-related charities, and for an ill child their bedroom is definitely where they feel the most at home."

Special Spaces' goal is to create dream bedrooms for children with life-threatening medical illnesses. The focus is answering one question: Where does a child go when battling a serious illness to find peace and comfort? Their bedroom. "A bedroom is often the only personal space a child has to represent his or her unique personality, explains Amy Eiduke, Director of the Northern Illinois Chapter for Special

Spaces and the Communication Director for Coldwell Banker. “For a child with a critical illness, that room should be a very special space of comfort and refuge.”
